OVERVIEW

Our Project is a Music Streaming Website. The objective of this website is to provide free music and talent recognition. It's an attempt to create a royalty free music website unlike Spotify.

DESCRIPTION

- The Website is created in HTML, CSS and Js.
- The Website provides Royalty free music varying in different languages.
- The Website provides Reverbed and Highly boosted mp3s.
- Users can also submit their own music and songs to be featured on the website as Mozhgan provides the audience with this feature.
- This Website features the commenting and liking feature for the audience.

SPECIFICATIONS

- Mozhgan is based on the Bootstrap Framework, 100% mobile-compatible and extendable.
- It is also compatible with retina screens and well-liked web browsers for a constant smooth operation.
- The Website also features embeded 3rd party platforms like Soundcloud.

WORKING

- STEP 1 - The user has to click on the link given below.
- www.mozhgan.in
- This website doesn't need any permissions from the admin.

WORKING

STEP 2: Click on the link then you will be redirect to front activity of the website which will bring you to the homepage of the website.
